

# International Oncology Innovations Summit 2026

Dates: 14-15 September 2026 | Venue: Budapest, Hungary

Advancing Cancer Research,  
Precision Oncology, and  
Innovative Therapeutics

Organized by:

Sciator Conferences LLP

Phone / WhatsApp: +1 9109963322

# Congress Overview

The **International Oncology Innovations Summit 2026** is an international, in-person scientific forum with a strong industry and translational focus, dedicated to advancing cancer research, clinical oncology, and innovative therapeutic approaches through multidisciplinary collaboration. The summit brings together oncologists, cancer researchers, clinicians, and industry professionals committed to improving cancer prevention, diagnosis, and treatment outcomes.

With rapid advancements in precision oncology, immunotherapy, genomics, and translational research, this summit provides a global platform to exchange scientific knowledge, share clinical experiences, and discuss emerging innovations shaping modern cancer care.

The event aims to foster collaboration among clinicians, researchers, industry leaders, and policymakers while addressing both clinical and translational priorities in oncology.

## Conference Objectives

- To highlight recent advances in oncology research and clinical practice
- To promote precision oncology and personalized cancer care
- To support translation of cancer research into clinical applications
- To encourage multidisciplinary collaboration across oncology specialties
- To address emerging challenges in cancer treatment and innovation

# Conference Vision

The summit envisions a future where cancer care is guided by innovation, precision medicine, and evidence-based research, leading to improved patient outcomes and sustainable oncology practices worldwide.

## Scientific Themes & Program Highlights

- Advances in Immunotherapy and Precision Targeted Cancer Therapies
- Precision Medicine and Genomics in Oncology
- Artificial Intelligence, Digital Pathology, and Data-Driven Oncology
- Radiation Oncology: Precision Delivery, Systemic Integration, and Technological Innovation
- Metastasis and Tumor Microenvironment: Research and Management
- Early Detection, Screening, and Cancer Prevention Innovations
- Global Oncology: Access, Equity, and Disparities in Cancer Care
- Palliative Care, Survivorship, and Quality of Life in Cancer
- Pediatric and Rare Cancers: Translational Challenges and Innovations
- Next-Generation and Experimental Oncology Therapies

## Tentative Agenda Overview

### Day 1

- Keynote Lectures
- Plenary Scientific Sessions
- Panel Discussions
- Networking Sessions

### Day 2

- Oral Scientific Presentations
- Poster Sessions
- Industry and Technology Sessions
- Collaborative Discussions

Detailed agenda will be published on the official website.

# Target Audience

The summit is designed for professionals involved in oncology research and cancer care, including:

- Medical Oncologists
- Radiation Oncologists
- Surgical Oncologists
- Hematologist-Oncologists
- Cancer Biologists and Molecular Oncologists
- Translational and Precision Oncology Researchers
- Immuno-Oncology Specialists
- Pathologists and Molecular Diagnostics Professionals
- Oncology Nurses and Allied Healthcare Professionals
- Clinical Trialists and Regulatory Affairs Professionals
- Pharmaceutical and Biotechnology Professionals
- AI and Digital Health Experts in Oncology
- Cancer Center Directors and Hospital Administrators
- Public Health and Cancer Policy Professionals
- Early-Career Researchers and Oncology Trainees

# Why Participate

- Gain insights from global leaders in oncology and cancer research
- Present and discuss innovative oncology research
- Network with international academic and industry experts
- Explore emerging cancer therapies and technologies
- Enhance professional growth and collaborative opportunities
- Engage with both academic experts and industry leaders driving innovation in oncology.

# Venue

## **Budapest, Hungary**

Budapest is a leading European destination for international scientific conferences, offering excellent connectivity, modern infrastructure, and a rich cultural heritage. The city provides an ideal environment for academic exchange, professional networking, and collaboration.

Participants will have access to a wide range of accommodation options and convenient transportation near the conference venue.

## **Contact Information**

For all inquiries related to registration, abstract submission, sponsorship, exhibition, and general participation, please contact the organizing team using the details below.
