# Congress Overview

The World Pediatrics & Neonatology Congress 2026 is an international, in-person scientific forum dedicated to advancing pediatric and neonatal healthcare through research, clinical innovation, and multidisciplinary collaboration. The congress brings together pediatricians, neonatologists, nurses, researchers, and healthcare professionals, along with industry stakeholders, committed to improving health outcomes for infants, children, and adolescents.

With rapid developments in neonatal care, pediatric subspecialties, public health, and evidence-based medicine, this congress provides a global platform to exchange knowledge, share best practices, and discuss emerging challenges in child and newborn health across diverse healthcare settings.

The event aims to foster collaboration among clinicians, researchers, and policymakers while addressing both clinical and public health priorities in pediatrics and neonatology.

## Conference Objectives

- To highlight recent advances in pediatrics and neonatal medicine
- To promote evidence-based clinical practices in child healthcare
- To address emerging challenges in neonatal and pediatric care
- To encourage collaboration across pediatric subspecialties
- To support research translation into clinical and community settings

# Conference Vision

The congress envisions a future where children and newborns worldwide have access to high-quality, equitable, and evidence-based healthcare supported by innovation, research, and multidisciplinary collaboration.

## Scientific Themes & Program Highlights

- Neonatal Intensive Care & Perinatal Medicine
- Pediatric Infectious Diseases & Immunization
- Pediatric Nutrition, Growth & Metabolic Health
- Pediatric Neurology & Neurodevelopment
- Pediatric Cardiology & Pulmonology
- Pediatric Emergency, Critical Care & Trauma
- Adolescent Medicine & Mental Health
- Pediatric Surgery & Neonatal Interventions
- Pediatric Oncology & Hematology
- Pediatric Nephrology & Urology
- Pediatric Gastroenterology & Hepatology
- Pediatric Rheumatology, Allergy & Immunology
- Pediatric Dermatology & Ophthalmology
- Global Child Health: Vaccines, Essential Medicines & Implementation Science

## Tentative Agenda Overview

### Day 1

- Keynote Lectures
- Plenary Scientific Sessions
- Panel Discussions
- Networking Sessions

### Day 2

- Oral Scientific Presentations
- Poster Sessions
- Clinical Case Discussions
- Industry and Technology Sessions
- Collaborative Forums

Detailed agenda will be published on the official website.

# Target Audience

The congress is designed for professionals involved in pediatric and neonatal healthcare, including:

- Pediatricians (General and Subspecialty)
- Neonatologists
- Pediatric Intensivists and Emergency Physicians
- Pediatric Surgeons
- Pediatric and Neonatal Nurses (NICU / PICU)
- Developmental and Behavioral Pediatricians
- Pediatric Neurologists and Cardiologists
- Pediatric Pulmonologists and Critical Care Specialists
- Pediatric Infectious Disease Specialists
- Pediatric Endocrinologists and Metabolic Specialists
- Nutritionists and Dietitians Specializing in Child Health
- Child and Adolescent Psychiatrists and Psychologists
- Clinical Researchers in Pediatrics and Neonatology
- Public Health and Global Child Health Professionals
- Healthcare Administrators and Policy Makers

# Why Participate

- Learn from global experts in pediatrics and neonatology
- Share research and clinical experiences
- Network with international healthcare professionals
- Explore innovations in pediatric care and technology
- Enhance professional development and collaboration

# Venue

## Kraków, Poland

Kraków is a prominent European destination for international scientific meetings, offering excellent connectivity, modern conference facilities, and a rich cultural heritage. The city provides an ideal environment for academic exchange, professional networking, and collaboration.

Participants will have access to a wide range of accommodation options and convenient transportation near the conference venue.

## Contact Information

For all inquiries related to registration, abstract submission, sponsorship, exhibition, and general participation, please contact the organizing team using the details below.
