# Congress Overview

The Global Congress on Women's Health, Hormones & Reproductive Medicine 2026 is an international, in-person scientific forum dedicated to advancing women's healthcare across the lifespan through clinical research, hormonal science, and reproductive medicine. The congress brings together clinicians, researchers, and healthcare professionals, along with industry stakeholders, focused on improving health outcomes for women through evidence-based practice and innovation.

With rapid developments in reproductive endocrinology, maternal health, hormonal therapies, and personalized women's healthcare, this congress provides a global platform to exchange knowledge, share clinical insights, and address emerging challenges in women's health across diverse healthcare settings.

The event aims to foster collaboration among clinicians, researchers, industry experts, and policymakers while addressing both clinical and public health priorities in women's health and reproductive medicine.

## Conference Objectives

- To highlight recent advances in women's health and reproductive medicine
- To promote evidence-based approaches in hormonal and reproductive care
- To address emerging challenges across the female life course
- To encourage multidisciplinary collaboration in women's healthcare
- To support translation of research into clinical and community practice

# Conference Vision

The congress envisions a future where women worldwide have access to comprehensive, equitable, and evidence-based healthcare supported by scientific innovation, clinical excellence, and interdisciplinary collaboration.

## Scientific Themes & Program Highlights

- Endocrinology of Women: Hormonal Health Across the Lifespan
- Reproductive Endocrinology & Infertility
- Obstetrics: Maternal Health, Fetal Medicine & Pregnancy Care
- Gynecology: Disorders, Surgery & Pelvic Health
- Women's Cancers: Prevention, Screening & Treatment
- Adolescent & Young Adult (AYA) Health
- Midlife & Menopause: Healthy Aging in Women
- Metabolic & Autoimmune Disorders in Women
- Mental Health, Stress & Psychoneuroendocrinology
- Global Women's Health, Equity & Innovation

## Tentative Agenda Overview

### Day 1

- Keynote Lectures
- Plenary Scientific Sessions
- Panel Discussions
- Networking Sessions

### Day 2

- Oral Scientific Presentations
- Poster Sessions
- Clinical Case Discussions
- Industry and Technology Sessions
- Collaborative Forums

Detailed agenda will be published on the official website.

# Target Audience

The congress is designed for professionals involved in women's health, hormonal science, and reproductive medicine, including:

- Gynecologists and Obstetricians
- Reproductive Endocrinologists and Fertility Specialists
- Endocrinologists and Hormone Researchers
- Maternal–Fetal Medicine Specialists
- Women's Health Physicians and Primary Care Providers
- Gynecologic and Breast Oncologists
- Adolescent Gynecology and Menopause Care Providers
- Nurses, Midwives, and Allied Women's Health Professionals
- Mental Health Professionals and Psychologists
- Biomedical Scientists and Translational Researchers
- Geneticists and Reproductive Genetics Specialists
- Public Health Experts and Health Policy Professionals
- Pharmaceutical, Biotechnology, and MedTech Professionals
- FemTech Innovators and Digital Health Companies
- Early-Career Researchers, Fellows, and Medical Trainees

# Why Participate

- Learn from global experts in women's health and reproductive medicine
- Share research findings and clinical experiences
- Network with international healthcare and industry professionals
- Explore innovations in hormonal and reproductive care
- Enhance professional development and collaborative opportunities

# Venue

## Kraków, Poland

Kraków is a prominent European destination for international scientific meetings, offering excellent connectivity, modern conference facilities, and a rich cultural heritage. The city provides an ideal environment for academic exchange, professional networking, and collaboration.

Participants will have access to a wide range of accommodation options and convenient transportation near the conference venue.

## Contact Information

For all inquiries related to registration, abstract submission, sponsorship, exhibition, and general participation, please contact the organizing team using the details below.
